

3M™ Volition™ Keystone Angled Faceplates 45x45

3M™ proposes a new angled faceplate for RJ45 keystone jacks.

As part of Volition™ cabling system for enterprise networks, it is compatible with all the RJ45 keystone jacks of the 3M range.

The angled design enables installing RJ45 jacks with straight cable exit in any type of boxes and trunks with small depth.

Features

- Angled faceplate
- Large labelling area
- Compatible with all the 3M Volition RJ45 Keystone Jacks
- Compatible with low-depth support systems (trunks, boxes, etc.)

Benefits

- Can be fixed onto vertical and horizontal 45x45 formats without additional accessories
- Allows identification with adhesive labels

Specifications

Dimensions: 45 x 45 x 37 mm
Weight: 16 g
Material: ABS
Colour: White RAL 9010

Ordering Information

Ref. No.

Keystone angled faceplate for one RJ45 Jack

FP4MF1KI

Keystone angled faceplate for two RJ45 Jacks

FP4MF2KI

Important Notice

The details contained in this literature have been carefully prepared from information available to 3M at the time of its production. However, it is not intended to be relied upon for purposes of product specification and you should contact your sales representative if specification details are required. Because of the wide variety of processes and conditions in which these products may be used, the user should first carry out tests to determine the suitability of the products for the particular use intended. All questions of warranty and liability relating to 3M products are governed by the selling 3M subsidiary's Terms of Sale subject where applicable to the prevailing law.
